University of Nigeria,
Nsukka · 2017 – 2022

PROFESSIONAL SUMMARY

Results-driven Product Designer with 4+ years of end-to-end design experience across fintech, edtech, and SaaS products, production-ready interfaces. Proven track record leading design for cross-functional teams, defining design systems from scratch, and translating complex business requirements into intuitive, accessible digital experiences that drive measurable user engagement. Equally fluent in Figma and code (Vue.js, React.js), enabling seamless collaboration with engineering teams and faster design-to-dev handoffs.

EXPERIENCE

Lead Product Designer

Sep 2024 – Present

Cyncra Technologies

- **Owned end-to-end design leadership** for multiple concurrent client products including fintech mobile apps, tax management platforms, and enterprise admin dashboards, managing delivery from discovery through stakeholder sign-off.
- **Established and led a structured design internship programme**, mentoring cohorts of junior designers in UX process, design systems thinking, and stakeholder communication, reducing onboarding time and increasing team output quality.
- **Led client discovery sessions and requirements workshops** with C-suite stakeholders, translating ambiguous briefs into scoped design roadmaps and reducing revision cycles by an estimated 30%.
- **Designed a fintech mobile application** with complex transaction flows, balancing regulatory compliance constraints with a streamlined UX, resulting in positive stakeholder feedback and accelerated client approval.
- **Delivered interactive, high-fidelity prototypes** for stakeholder demos, enabling confident product decisions and reducing time spent on textual spec reviews.
- **Defined component-level design systems** shared across projects, cutting UI inconsistency and speeding up design-to-engineering handoff.

Product Designer

Aug 2023

ActivEdge Technologies

- **Designed end-to-end UI/UX for web, mobile, and dashboard products** across B2B and B2C verticals, owning the full design lifecycle from research and wireframing to final production specs.

- **Led user research and usability testing on a Supply Chain Finance platform**, synthesising insights into actionable design improvements that enhanced task completion clarity for finance operators.
 - **Built and maintained a scalable design system and brand guideline library**, reducing design inconsistency across the product suite and enabling the engineering team to implement UI components **40% faster**.
 - **Collaborated daily with developers, product managers, and business stakeholders** to align design decisions with technical feasibility and business KPIs, earning multiple formal commendations for outstanding performance.
 - **Conducted structured product reviews and QA walkthroughs**, catching UX regressions and ensuring pixel-level fidelity between design handoff and live product.
 - **Created responsive web and mobile designs** with accessibility and WCAG compliance in mind, broadening product reach to users across device types and connectivity conditions.
-

Frontend Developer & UI Designer

May 2022 – Sep 2022

PaddleTech

- **Designed and built the company's public-facing landing pages and email marketing templates** using HTML/CSS and Vue.js, contributing directly to brand visibility and lead acquisition.
 - **Collaborated with a cross-functional team** to design and develop a restaurant web application, owning the UI design and frontend implementation from concept to deployment.
 - **Implemented custom animations and micro-interactions** to improve perceived performance and UX quality, creating a more polished, app-like experience for end users.
-

UI/UX Designer & Frontend Developer

Apr 2021 – Sep 2021

Centre for Distance & E-Learning (CDEL)

- **Led UI/UX design for a Computer-Based Testing (CBT) platform prototype**, defining information architecture, user flows, and wireframes to support thousands of prospective student users.
 - **Developed high-fidelity mockups** balancing institutional branding constraints with clean, exam-optimised UX, facilitating confident stakeholder sign-off on the prototype direction.
 - **Conducted end-to-end testing and troubleshooting**, identifying critical usability gaps before handoff and improving overall solution robustness.
-

UX Designer

Apr 2021 – Sep 2021

Avare Ltd.

- **Delivered wireframes, user flows, and high-fidelity mockups** for the company's website and mobile consulting dashboard, establishing the visual and UX foundation for the company's digital presence.

- **Conducted iterative prototype testing cycles** to validate design decisions early, reducing costly redesigns post-development.

ACHIEVEMENTS

- **Top 3 Finalist — Hugelcons Season 1 Design Challenge** (Global competition); awarded 3rd place, demonstrating competitive design ability on an international stage.
